## Description

The Invesco US Large Cap Index is a broad-based equity index measuring the aggregate performance of large-cap companies in the United States.

## Methodology Highlights

The Index includes all securities in the Invesco Indexing Investable Universe designated US large cap companies. The Invesco US Large Cap Index employs a float-adjusted market-capitalization-weighted process.

The Index was launched on 10/20/2017.

All data prior to its launch date is back-tested (i.e. calculations of how the Index might have performed over that time period had the Index existed). Back-tested performance is subject to inherent limitations because it reflects retroactive application of an Index methodology and selection of Index constituents with the benefit of hindsight. Past performance, actual or back-tested, is no guarantee of future performance.

The Total Return Index assumes dividends are reinvested in the Index after the close on the ex-date.
